

MICHIGAN DEPARTMENT OF STATE POLICE

January – June 2009 Preliminary Crime Statistics

Data reported as of August 27, 2009

Preliminary figures are derived using MICR (Michigan Incident Crime Reporting) crime statistics reported for the first six months of 2009 from agencies that have jurisdiction for a community with a population of 100,000 or more. Statistics from these agencies are used since they represent the majority of the population for Michigan. The MICR data fluctuates daily and these totals are compiled from data MSP has received from these law enforcement agencies as of August 27, 2009, for the first six months of 2009.

The violent crime totals for these agencies have increased (1%) for the first 6 months of 2009 when compared to previous year's figures. Two of the four offenses in the category of **violent crime** reported increases, Murder and Aggravated Assault; the three offenses in the category of **property crime** declined 14%. The number of reported arson offenses decreased 12%.

Year	FBI Estimated Population	Total Violent Crime	Murder	Rape	Robbery	Agg Assault	Total Property Crimes	Burglary	Larceny - Theft	*Motor Vehicle Theft	Arson	^Crime Rate

2008 Data as of August 27, 2008. *The Motor Vehicle Theft category counts the total number of vehicles stolen. Victim crimes (murder, rape, and aggravated assault) count the number of victims. Due to different reporting methodologies, these figures may appear different than those reported by the FBI.

^A crime rate is calculated by dividing the number of reported crimes (violent, property, and arson) by the total population; the result is multiplied by 100,000.
